Subject:	RE: Access Agreement

Mr. Davis,

Sorry, I was out of the office on an inspection yesterday. I received your e-mail this morning. I appreciate the information.

I will not be inviting Mr. Rochester to accompany us any of the properties, but I can't stop him from showing up. I will be asking for his agreement to allow us to take samples of his waste at each of the properties, but he does not need to be present when we take the samples. We will probably ask the local PD to be present at several of the sites out of caution. As I stated on the phone, we are not criminal investigators but administrative investigators. Because tensions are already high, and because these situations can elevate quickly, we will excersize caution for our safety as well as yours.

I will be contacting Mr. Benson, but I will not be asking him to be present during the sampling. Thank you for the contact information.

Subject: Access Agreement

Ms. Wenner,
I sent you an email on 03/28/17 at 4:06 P.M. relative to the telephone number and address for Mr. Dennis Benson.
For some reason my I-phone indicated that you have not receive the email. We just sent you the same email a few minutes ago in case you didn't receive the first one. I tried to call you this morning about Mr. Rochester I would really rater not have to bother the South Sioux City Police Dept. If you choose to bring Mr. Rochester please go ahead and do so. I assure you that I will cause no problems and I don't believe he will either. It might also benefit you to have Mr. Dennis Benson at the site.

Thank you.

D.A. Davis
